

## ARRANGEMENTS FOR FUNERAL.

bearers for Chief Justice Fuller Named.

Justice Holmes to Represent Supreme Court.

Messages of Sympathy Are Received.

ASSOCIATED PRESS NIGHT REPORT.

PORTLAND (Maine) July 5.—As Justice Oliver Wendell Holmes is the official representative of the Supreme Court at the funeral of Chief Justice Fuller tomorrow, Justice Holmes, who is to be present, together with Justice Brandeis, will act as pallbearers. The other bearers will be selected from among the people of Portland.

Services in Chicago will be held at 3 o'clock in the afternoon at the funeral home of E. Freeman, who will accompany the body from here, will be the officiating clergyman.

According to present plans the pallbearers at the funeral will be Justice Holmes, Gen. Hubbard, Chief Justice Fuller, Chief Justice Brandeis, and Chief Justice Taft.

Justice Brandeis, who is to be present, together with Justice Holmes, will act as pallbearers. The other bearers will be selected from among the people of Portland.

## BALLINGER WO'NT QUIT.

(Continued from First Page.)

tion of the lands. This will have to be done by the Geological Survey, and the undertaking is a big one. Once the classification is completed, we will be confronted by the task of getting special legislation through Congress for the disposition of the lands on a fair basis. This legislation will require a lot of thought and study. The problem is intricate.

WORK FOR ENGINEERS.

Secretary Ballinger said tonight that he had prepared the instructions for the board of engineers appointed by the President to pass on the irrigation projects that are to be completed under the \$20,000,000 issue of certificates of indebtedness.

It will not be necessary for him to wait in Washington for the five engineers to assemble there, as Assistant Secretary Pierce will go over the work with the engineers.

Mr. Ballinger made it plain that while the army engineers will have the say as to what projects shall be completed, the actual work of construction will be done by the field force of the Reclamation Service under the supervision of the director.

Gen. William T. Marshall, the engineer officer appointed last week as consulting engineer to the Reclamation Service, will, of course, be an important factor in the work.

As to the expenditure of the \$20,000,000 fund placed at the disposal of the President to protect the Imperial Valley in Southern California, from the Colorado, Secretary Ballinger said that all immediate danger seemed to have passed and engineers would be sent to report on the situation before any work was ordered. An effort will be made to devise permanent protection of the banks of the Colorado and the Laguna dam.

OTHER CALLERS.

In addition to Secretary Ballinger, the President had as callers this afternoon Paymaster General Whipple of the army, Assistant Secretary of the Navy, Winthrop, and Representative John Dwight of New York, the Republican "whip" of the House.

Mr. Winthrop had a number of details of the Navy Department to take up with the President. Representative and Mrs. Dwight are on a long motor tour, and the Representative merely paid a social call.

President Taft's "real vacation" is to begin tomorrow. No more business engagements are to be made for him for ten days.

GETTING WARM.

ROOSEVELT FOR POINDEXTER.

COLONEL AND WASHINGTON INSURGENT IN CONFERENCE.

Boys of Sagamore Hill Refuse to Say Absolutely, But Imply That He Will Back Ballinger's Arch-Enemy Against Piles in Race for United States Senate.

ASSOCIATED PRESS NIGHT REPORT.

OSTER HAY, July 5.—Theodore Roosevelt made it clear today, not by direct statement, but by implication so strong that it admits of no misinterpretation, that he will support Representative Miles Poindexter in his fight for a seat in the United States Senate from the State of Washington.

He had luncheon together, and a conference at Sagamore Hill today, and Mr. Poindexter departed jubilant.

In endorsing Poindexter for the Senate, Col. Roosevelt places himself squarely in opposition to Richard A. Ballinger, Secretary of the Interior, whom President Taft has so warmly defended.

It is the only stand he has taken bearing directly or indirectly on the Ballinger-Pinchot controversy.

Mr. Poindexter is opposed to Secretary Ballinger from first to last, and hopes to succeed Senator Piles of Washington, who has been identified with the Ballinger wing of the Republican party in that State.

STATEMENTS GIVEN OUT.

Leaving Oyster Bay, after the conference, Mr. Poindexter said:

"I found Col. Roosevelt. He and I have worked together always, and he assured me that we always will work together. I am delighted with the result of the visit."

Col. Roosevelt looked happy when he received the interviewers a little later. He was dressed in the crash riding suit which he wears most of the time he is at home. Seated in his library he spoke of his talk with Mr. Poindexter in a manner that showed plainly the pleasure the meeting had given him. This is what he said:

"Representative Poindexter and I went over the political situation in the Northwest. He assured me he was in hearty sympathy with my conservation policy.

## FEELING HIS WAY.

(Continued from First Page.)

While the general opinion here is that Col. Roosevelt is still "feeling his way" as regards his ultimate attitude toward the Taft administration, his stand today is considered the most striking indication of his political frame of mind. And that he will still fight hard for the conservation movement he made plain to interviewers when Mr. Poindexter had gone.

There have been two important insurgent conferences at Sagamore Hill since the colonel's return, but more are coming.

One of the most potent of these is arranged for Thursday next. On that day five of the best known and wealthiest of the insurgents are coming to have a talk with the ex-President, but Mr. Roosevelt declined to give out their names.

Gov. Hughes had been expected tomorrow, but he telegraphed he would attend the funeral of Chief Justice Fuller at Bar Harbor. He will come to Oyster Bay Thursday or Friday.

Robert Bacon, Ambassador to France, and Gilbert Gardner, a magazine writer, were the other guests at luncheon at Sagamore Hill today.

The colonel and the Ambassador fought it out today on the tennis court at Sagamore Hill as they used to do on the White House court. The colonel is going to his editorial office in New York in the morning, and will return to his home late in the day.

PILES IS OUT OF RACE FOR SENATE.

ASSOCIATED PRESS NIGHT REPORT.

SEATTLE, July 5.—Secretary of the Interior R. A. Ballinger and Representative Miles Poindexter, the insurgent candidate for the Senate to succeed Senator Piles, are not residents of the same Congressional District, but live in widely separated sections of the State. Secretary Ballinger is a resident of Seattle, in the First District, while Mr. Poindexter lives in Spokane, in the Third District.

Local politicians are unable to understand the statement in the Oyster Bay dispatch that Representative Poindexter is a candidate for the Senate against Senator Piles, as the latter has emphatically declared that he will not seek reelection. In a signed statement, given to the press yesterday, Mr. Piles announced his withdrawal from the race, and pledged his support to Judge Thomas Burke of Seattle, who is running for reelection over former Senator John W. Wilson of Seattle. Representative Poindexter and James N. Ashton of Tacoma, Senator Piles has not yet returned from Washington.

PRESIDENT TAKES A TEN DAYS' VACATION.

BEVERLY (Mass.) July 5.—(Exclusive Dispatch.) The ten-day seclusion of the President began tonight, Senator Warren of Wyoming got as far as Boston and telephoned for an appointment. He was told that no engagements would be made with anyone for ten days, and announced over the telephone that he would take a train home at once, and return later.

Mr. Warren had gone to Sacramento, Me., to attend the funeral of Chief Justice Fuller, is not expected here. No engagement has been made, and nothing had been heard from the Governor by the President.

While the appointment of justices to fill vacancies will not be made until fall, perhaps December's postponement on June 22, the date first fixed.

The wedding today was simple, unostentatious—almost dull. Only twenty-four persons were present. No floral decorations adorned the church; there was no wedding favors, and no bridal reception.

But the bride, who is only 18 years old, looked like a Bougreau's "Madonna of the Lilies," as she walked down the aisle, carrying a large bunch of lilies on her arm.

The bride is tall, with a beautiful figure, exquisite complexion, violet eyes, and a smile that is a charming grace. She was making an admirable match for the Vanity Fair point of view, and it should be supposed that it was a love match for her as well as for the bride.

But today she appeared as if very much bored. She lacked all her usual vivacity; she was anything but the traditional happy bride. Her friends in the church noticed her cold, listless bearing and whispered: "It is a loveless marriage on her side."

The bride's friends in the church noticed her cold, listless bearing and whispered: "It is a loveless marriage on her side."

## PUTS FOOTBALL ON BLACKLIST.

David Starr Jordan Speaks Against the Game.

Says It's Sport That Can't Help College Men.

National Educational Association Topics.

ASSOCIATED PRESS NIGHT REPORT.

BOSTON, July 5.—Denouncing college football as a combination of brutality and pugilism that appealed to the love of the crowd, David Starr Jordan, president of Leland Stanford University, led in the discussion that followed a report made today by the Committee on Moral Education in Public Schools to the National Council of Education of the National Educational Association in convention here. His address was:

"Some day the college presidents and school heads of this country will perhaps be called cowardly and brutal because they did not put a stop to the dangers of football, a sport that destroys the best there is in many a youth."

The game, he continued, aroused the same love of the sordid that focused the interest of the country in a "ring" way out in Nevada, where a black man and a white man were pouncing each other yesterday.

"No intelligence is required in the game of football," he asserted. "Blacksmiths and bootmakers can play the game as well as men of the finer intellects; in fact, they are considered the best raw material for the game."

President Jordan favored the substitution of the English game. In most of the eighteen departmental meetings of the convention today there was at least one advocate of the introduction of the industrial training and agriculture in the secondary schools.

At the second meeting of the general session of the association tonight, President James V. Joines delivered his annual address. He was followed by Commissioner of Education Brown.

REGRETTABLE.

LOVELESS UNION FRIENDS THINK.

MISS DOROTHY DEACON WEDS PRINCE RADZIWI.

Delayed Nuptials Simple, Unostentatious, Dull—Bride Appears Cold and Listless—She Looks Her Usual Vivacity—Few Guests, no Decorations in Church, no Reception.

ASSOCIATED PRESS NIGHT REPORT.

LONDON, July 5.—(Exclusive Dispatch.) Despite his mother's opposition, Prince Antoni Albert Radziwili and Miss Dorothy Deacon, daughter of the late Edward Parker Deacon of Boston, were married in St. Mary's Roman Catholic Church, Cadogan street, today. The absence of documents necessary to make the marriage of two foreigners legal and binding in church led to the postponement of the wedding until June 22, the date first fixed.

The wedding today was simple, unostentatious—almost dull. Only twenty-four persons were present. No floral decorations adorned the church; there was no wedding favors, and no bridal reception.

But the bride, who is only 18 years old, looked like a Bougreau's "Madonna of the Lilies," as she walked down the aisle, carrying a large bunch of lilies on her arm.

The bride is tall, with a beautiful figure, exquisite complexion, violet eyes, and a smile that is a charming grace. She was making an admirable match for the Vanity Fair point of view, and it should be supposed that it was a love match for her as well as for the bride.

## A GED BREAD UNDER GLASS.

Leaves Ninety-three Years Old: Made When Wheat Cost \$94 a Bushel.

(BY DIRECT WIRE TO THE TIMES.)

MUNCIE (Ind.) July 5.—(Exclusive Dispatch.) Carefully preserved beneath a glass case at the home of Joseph Hummel, a veteran Muncie business man, are two small loaves of bread, each weighing an ounce and a half, that were baked ninety-three years ago, and that are relics of the famine that swept Germany in 1816 and 1817. Wheat then sold for \$94 a bushel. The loaves are heirlooms in the Hummel family and came into Mr. Hummel's hands when he was visiting his old home in Wurtemberg recently. Floods and the Napoleonic wars virtually destroyed the wheat crop.

"BABIES, NOT VOTES."

(Continued from First Page.)

Lady Suffolk nor Mr. Letter, but of a newspaper photographer. Lord Suffolk, who has all of the simplicity of the really important, obeyed the photographer's request, and tried to take exactly the attitude required. He is a fair, slender and not tall. When he walks he bends slightly at the waist line, as many Englishmen do.

"Well," asked a woman reporter, "what will settle the matter in England, then?"

"Revolution," responded the nobleman.

"Do you really think they're going to have a revolution?" asked the reporter.

"No, I think not," answered the interviewee. And thus the discussion ended, where so many discussions do, which is just at the point where it begins.

THE STEAMER AFFAIR.

The picture was completed, but the victim was not allowed to go without again relating his experience in crossing, when his boat and another collided. He related it, as Lady Suffolk pointed out, for the 360th time.

"You know, I'm getting to look on it as a rather important and serious accident. I put it down now as one of the narrow escapes. Really, there was more excitement in New York regarding the accident when we landed than on board," declared the former Chicago society woman, daughter of the late Lord L. Letter.

"I sat in the cabin, you know," said Lord Suffolk, as his brother-in-law called his arm and pulled him into the machine, "and I didn't know," he called back as the machine started, "that we had had an accident until afterward."

WANTED IN LOS ANGELES.

Thompson and Wife Will Fight Extradition from Reno Because Officer Refused Birth on Train.

RENO (Nev.) July 5.—(Exclusive Dispatch.) Fred H. Thompson, who, with his wife, has been under arrest, connected with the Alton case of Los Angeles, and who, in charge of Deputy Sawyer, was permitted to attend the big fight yesterday, was taken in charge by Deputy Sheriff Branton under a warrant for a fugitive from justice. Deputy Sheriff Branton, who arrived here to take Thompson and wife back to Los Angeles, swore to the complaint. He was transferred from the jurisdiction of the Sheriff to the police.

Brown was returning with the couple tonight, but because the officer insisted upon them sitting in a coach instead of being permitted to engage sleeping berths, Thompson refused to go and declared he would fight extradition. He said his wife, after the strenuous days of the fight excitement here, was too fatigued to take the long ride without a berth.

DR. PAUL A. ADAMS DIES.

Former Physician of Los Angeles, Late Army Surgeon Dies While in Honolulu.

ASSOCIATED PRESS NIGHT REPORT.

HONOLULU, July 5.—Lieut. Paul A. Adams, assistant surgeon of the Medical Reserve Corps, died July 3 at Schofield barracks. His remains will be sent home on the army transport Sheridan. Adams was formerly a practicing physician of Los Angeles, Cal.

STILL IN JAIL.

HYDE GETS LIFE SENTENCE; NOTICE OF APPEAL IS FILED.

(ASSOCIATED PRESS DAY REPORT.)

KANSAS CITY (Mo.) July 5.—Dr. B. C. Hyde, convicted of having poisoned Col. Thomas H. Swope, the millionaire philanthropist, was sentenced to life imprisonment at hard labor, this morning by Judge Ralph S. Latham in the Criminal Court.

An appeal to the State Supreme Court was filed by Hyde's attorneys, and until it is taken up by the higher court the prisoner will remain in the County Jail here.

The case was called by Judge Latham as soon as court opened today. The doctor and his wife, who had stood by him so faithfully at side by side and held each other's hands as Judge Latham promptly overruled the motion for arrest of judgment and commanded Dr. Hyde to stand up before passing sentence, he asked the prisoner if he had anything to say.

Dr. Hyde, smiling and very calm, replied: "I did not understand you, Judge."

## EASY PICKING.

LE SHUTS  
OUT CHAMPS.

Never Have Ghost of  
Chance to Win.

Makes Great Stab of  
Madden's Long Fly.

Henley Feels Thud of  
Big Stick.

Los Angeles, 4: San Francisco, 8.  
The game was so unlucky as to go  
Nagle yesterday when he was  
and the result shows that they  
out as much chance as poor  
fries. They were so badly out-  
all the way that but four of  
each second base and only  
as far as first. The truth of  
ter is that they could not come  
four games Sunday and  
and a 400-mile ride in a Pull-  
man. Still, it is hardly to be sup-  
posed that any one could recover  
from a ride in a Pullman.  
had it on them, however, in  
way and was never in danger.  
addition to having fine ball he  
even perfect support. Delmas  
the fine throwing to first base  
certainly helped in keeping runs  
from the plate, but Daley was  
who cut off one or more runs  
ninth inning. With one out and  
second and first, Madden, the  
fielder, slammed a long fly to  
d.

DALEY'S CIRCUS GRAB.  
Daley was playing over behind  
base and started toward the  
board at top speed when Mad-  
den hit the ball. It sailed far over  
and in all probability would  
have landed over the fence for a  
run had it struck the ground.  
Daley, when Daley saw the ball go-  
ward the fence, he started to  
new sprint record and after  
of about 200 feet grabbed the  
th outstretched hands just be-  
reached the fence.  
from Delmas's throws to first  
by Daley was about the only  
of the game, for almost all of  
the hits were scratches and the  
banged the ball on the head  
and hard, and in such a stren-  
uous manner as to prevent any fancy

started in the second inning  
scratch bounce single toward  
field and Tennant bungled this  
enough to allow Dillon to reach  
He got to third on Murphy's  
and scored on Wheeler's out.  
Then with two out, Henley  
Delmas and followed with a  
which put Del on third and  
d in when Waring doubled to  
ater. With two out in the  
Delmas doubled to center and  
on singles by Waring and  
With two out in the sixth Del-  
delighted and stole second and  
on Waring's hit to left. It was  
it was a shame to take the

Stewart played second base  
out of the absence of Mohler.  
passed the train when the team  
in San Francisco Monday night.  
Daley showed a new outfielder  
den, who comes from the Utica,  
team. He is said to be a good  
though he showed nothing start-  
yesterday. None of the visitors  
far as that goes.  
who was injured some days  
ing into a base, may be able  
Friday, but he is not sure of it.

Travelers Bewilder Infelders  
in They Charge Along the Lines  
and of Waiting to Be Advanced  
Batsmen—Spiking Result of  
Day Playing.

"I think I am on the right road,"  
Clark Griffith recently. "This  
thing is bound to win, and  
ing to keep the boys at it while  
signs are good. Get the other fel-  
lowing, and you can do a lot  
with them. Of course,  
are times when discretion must  
be used. I don't recommend head-  
line thieving when Kline or Arch-  
er get even Becher too often to  
be played. But take the general  
catchers, and it pays to keep  
growing."  
is the present status of the  
ing part of baseball; base run-  
has been so subordinated of re-  
years that the infelders don't  
how to deal with them all the time.  
They don't know what to do  
man after man, instead of wait-  
be baited around, comes char-  
down the line. Catchers throw  
thirty infelders take the throw-  
ups around like catfish. You can  
all the time if you only have a  
serves.  
making of infelders, I think,  
the result of this uncertainty

[illegible][illegible][illegible]

on a square deal. All whites are concentrated at that remarkable region.

This makes little difference as far as our geographical knowledge of Tibet is concerned. The land is no longer a mystery. There were two long, wide stretches of the country where we were wholly unknown when the British marched on Lhasa. One of them extended from the northwest corner to the central lakes and the other through southwestern Tibet to Garkot. The veil has been lifted from both these regions by the Rawling and Hedin expeditions.

A map yet published shows the full course of the upper Brahmaputra or the sources of that river, the Indus and the Sutlej; or the lake and mountain region of the northeast, or Garkot. The veil has been lifted from the whole white space in the southwest, and of which we had no inkling till two months ago. But the new map of Tibet will appear in due time.

It will be a very good map of the world's largest unexplored white spaces will remain, to be sure, but that is the case even in our own domain.

NOT BOASTING.

## MODEST CLAIM BY STALLINGS.

### HIGHLANDERS' MANAGER HOPES FOR PENNANT.

Does Not Consider Championship His Personal Property, Says Team Will Simply Try To Win Every Game—Nine Well Balanced as a Result of Good Trades.

NEW YORK, June 13.—Manager George Stallings of the New York Highlanders, although his team is very near the front in the American League race says he is hopeful that it will occupy first position next October, but is not claiming the championship for the Hilltoppers. He says his men will simply try to win every game they play.

Chief Stallings is in command of a team which, on paper, doesn't loom up very formidable. It lacks the outfit playing baseball, just the same, and it has been rewarded with the temporary leadership in the fight for the rag. The New York manager upholds his players and says they have every right to be where they are.

"I have a better team than most people give me credit for having," stated Stallings. "We are on top now. I don't know who we will stand when the season is finished, but I know that we are hustling hard and trying to win as many games as possible."

"I have many well-balanced outfielders, though, is the chief stock in store. Every one of the boys is playing as hard as he knows how. That's an important thing."

Chief Stallings stated that he was satisfied with the winter trade which enabled him to procure Catcher Lou Criger from the Browns in exchange for pitcher Ed Reardon and outfielder Ray Demmitt, the latter having recently been released to Montreal (Eastern League) club. Stallings has a number of young twirlers. In fact, the good work of the young summer is mainly responsible for the team's success to date. Still, with Joe Lake a member of the New York twirling corps and former star of the Yankees, he has for the Browns, the New York team would be even more confident of the pennant.

Joe Lake was a good pitcher when I traded him," continued Stallings. "I always did know he was a good twirler. But I am satisfied with my end of the trade in landing Lou Criger."

"No, he hasn't caught very many games for us, but he has served the purpose for which I obtained him. He pitched very well against Philadelphia organization and Criger, as much as any other player, has helped to round out the team."

In order to carry a good bunch of substitutes all season. Through want of extra hands last season, my team was up against it several times. This year, though, I have extra first and second basemen, extra shortstop and so on. I don't intend to pass any of my utility men over to O'Connor."

"I have only three outfielders, Knight being the considerate man extra fly chaser. Hemphill is playing the best ball of his career this year. He certainly has been performing splendidly. My batter who is playing right hand, has turned out a valuable man. He is a good outfielder. When he was with St. Louis he was used mostly as a pitcher. I haven't sent him to the box at all."

### MINUTE MEASUREMENTS.

#### Marvelous Machines That Register Even the Power in the Wink of an Eye.

[Chicago Tribune.] The sensitiveness of the human organism is gross indeed compared with that of the marvelous machines man has made.

The sensitive microscope coupled with a telescope discovers millions of stars whose light the retina of the eye does not appreciate; the microphone makes the inaudible tread of a fly heard; the oscilloscope registers differences of temperature beyond one-fifth of a degree. But the barometer, for instance, measures 200,000 times the pressure of the skin, notes a difference of a millionth of a degree. A galvanometer flexes its finger at a current generated by simply deforming a drop of mercury so as to press it out of a spherical shape into that of an egg.

The amount of work done in the wink of an eye equals 150,000,000,000 of the units measured on the scale of a delicate instrument, but even this performance is surpassed by the "coherers" of Branley of Paris, by which the electric waves of ordinary telegraphy are caught in their pulsings through space.

The range of impressions which we meet from lifting an object is exceedingly small. An ordinary change of balance is some million times as sensitive and weights down the 200th part of a milligram. Without such insensitiveness, there would be almost no sense about the world that they pervade our reach. They make it evident that our sense organs give us reports of but a comparatively small number of comparatively gross stimuli.

### Planting for a Rain.

Conductor: Hello, Bubba! What's in the air?  
Commuter: Not exactly. Going to plant it in my garden, though—it's raining.

Conductor: Great Scott! What do you expect to raise?

Commuter: The mortality rate among Pittsburgh's cattle, dogs and poultry.

(Pittsburgh Gazette.)

The body of Os Guide, late Norwegian Minister to the United States, was buried yesterday at Washington. Burial was held Monday at Friday.

CITY MUST BE VERY FRUGAL.

Assessment Values Increase at Great Rate.

Millions in Bonds Should Be Provided for Soon.

Annexed Districts Have Each Their Own Debts.

Los Angeles city will have a taxable valuation for the fiscal year 1910-11, beginning July 1, of \$232,000,000, which is an increase of \$35,000,000 over last year, which was \$197,000,000. This was made known yesterday by City Assessor Mallard when the footings of the assessment books, which have been in compilation since March 1, were made known.

On this valuation the city tax rate for the year will probably be just the same as it was during the year just ended. City Auditor Myers has made no calculation, but he believes it will not be higher. Others who have calculated think it may be a few cents less. As the rate last year was \$1.47, it is expected the rate this year will be practically \$1.45 and that this will finance the municipal government handsomely during the coming twelve months.

The tremendous increase is not due to increase in values in the city but is largely gained by the annexed territory. This added over \$31,000,000. The natural increase in Los Angeles as it existed when the valuation was made last year is over \$24,000,000, or nearly 2 per cent., which is regarded as a very large gain and an evidence of the steady prosperity of the city.

Of the increase of twenty-four millions in the old city one-fourth comes from eight of the largest corporations.

HORSE RUNS INTO CROWD.

Scared by Auto's Exhaust, Animal Breaks Away, Seriously Injuring Two Men.

Frightened by a wheezy automobile which let out its exhaust with a roar, a horse belonging to J. E. Holbrook, No. 323 Belinda street, became panic-stricken yesterday, ran down Los Angeles street and dashed into a gathering of men at Second and Los Angeles streets, injuring two. One of the men struck will probably die, the other may develop internal injuries later.

Jerry Hanlon was knocked to the pavement when the runaway struck him and threw him several feet. He sustained a severe concussion of the brain, a possible skull fracture, laceration of the chest and head, and a compound fracture of the right tibia. He was taken to the Receiving Hospital unconscious, and was pronounced in a serious condition early this morning.

John Peterson, a machinist, who lives at the Greater Los Angeles Hotel, East First street, was bumped by a horse, and a shaft of the wagon struck

WHO'S GOING, ALL ABOARD!

WIRE UNDER OCEAN GETS HIM A BRIDE.

Mr. and Mrs. Sherman Jewett.

EIGHT days ago Sherman Jewett Bainbridge called a proposal of marriage from Honolulu to Miss Cleora Oder at San Francisco. Yesterday afternoon Miss Oder became Mrs. Bainbridge, the ceremony being performed at the home of the groom's mother, Mrs. Mary E. Bainbridge of No. 211 Park Grove avenue, this city.

The romance broke as a surprise, not only to the many friends of Bainbridge here, but to his immediate family. Monday night the groom and bride-to-be arrived from San Francisco on the Shore Line Limited, and hurried out to the home of Bainbridge's mother, where he introduced his fiancée.

There are many romantic elements connected with the match. Bainbridge met Miss Oder in San Francisco about a year ago. They became very well acquainted, and the friends of Miss Oder began to wag their heads and look wise, but when Bainbridge sailed for Honolulu, after a short while people forgot the incident.

But Bainbridge had not forgotten. The more he thought it over the more certain he became that there was only one girl in the world for him. To the cable office he rushed and indicated a message.

LONG RANGE COURTSHIP. "Will you marry me?" Sherman, in the message that flashed under 3000 miles of water to the maiden in San Francisco.

"I will," Cleora, is the answer that flew back. The cable reached the anxious swain at 8 o'clock one morning; the Pacific Mail steamship Manchuria was scheduled to sail for San Francisco at 10 o'clock that morning. Waiting only to throw a few things into trunk and suit case, Bainbridge started for the Pacific Mail wharf. He informed the agent that a matter of life and death demanded his presence in San Francisco, and insisted that accommodations on board the ship be provided for him. The ship was already crowded, but the agent was impressed with the excited manner of the young man and fitted him out with a berth.

He followed six weary days of waiting while the liner plowed her way through the water to San Francisco. Day after day the Manchuria tore off her 24 miles, but to the anxious lover she seemed to be moving at a snail's pace. Then, when only 100 miles off shore, it was reported that the ship had been lost outside the harbor until daybreak.

NO TIME LOST. But the next morning, when the Manchuria had passed the quarantine officers, Bainbridge dashed ashore. His luggage was in the hands of the customs inspectors, but he paid no attention to them. He was waiting at the wharf and there was just time to reach Third and Townsend street station before the departure of the Shore Line Limited for this city. A hurried message was sent to Miss Oder's family. Without luggage of any kind the happy pair sped for the station, bought their tickets and settled back in the seats in the chair car just as the morning train pulled out.

Night before last Bainbridge and Miss Oder presented themselves at Mrs. Bainbridge's residence. "Mother, this is the young lady I am going to marry," was the startling introduction which the groom-to-be made. Mrs. Bainbridge was dumb with amazement for an instant, then she welcomed the new daughter with a warmth which delighted the bewildered little girl's heart.

NOT TWENTY-ONE. Yesterday morning arrangements were made for the wedding. Carleton J. Bainbridge, the brother of the groom, took charge of the arrangements while the happy man himself started for the County Clerk's office to secure the license. Just as he was leaving the house his brother thought him of a slight formality to be gone through with. Sherman is just 20 years old and could not be married without his mother's consent. The consent was quickly obtained, the brother drew up the necessary papers, witnessed them in his notarial capacity, and saw Sherman to a car.

Then the bride-to-be started downtown to do some shopping, for her

intimate friends of the bride and groom, the ceremony was performed by Rev. Edmund Walters. The was almost strictly a family affair. In the parlor of the handsome Bainbridge home on Park Grove avenue, the bride and groom, dressed in the most formal of attire, stood before the altar. The bride wore a gown of white tulle, and the groom wore a tuxedo. The ceremony was simple and elegant, and the bride and groom were united in marriage. The bride's name is Cleora, and the groom's name is Sherman. They are both from Los Angeles. The bride's father is Mr. J. E. Bainbridge, and the groom's father is Mr. S. J. Jewett. The bride's mother is Mrs. Mary E. Bainbridge, and the groom's mother is Mrs. J. E. Jewett. The bride and groom are both graduates of the University of California. The bride is a member of the Beta Beta Beta Society, and the groom is a member of the Phi Kappa Phi Society. The bride and groom are both very popular in their community. The bride and groom are both very intelligent and successful in their careers. The bride and groom are both very kind and generous people. The bride and groom are both very happy and content with their lives. The bride and groom are both very much in love with each other. ## KINNEY IS PRESIDENT.

Vice-Principal of Los Angeles High School Head of County Education Board.

B. O. Kinney, vice-principal of the Los Angeles High School, was elected president at the reorganization of the County Board of Education yesterday. He succeeds George A. Boden, whose term as a member of the board recently expired. The term of George M. Larkey, principal of the Seventh-street School, also has expired.

The two new members of the board are Arthur H. Chamberlain of Throop Polytechnic Institute, Pasadena, and W. W. Tritt, principal of the Thirtieth-street School, of this city. Mr. Chamberlain was the only member not at the meeting. He is attending the convention of the National Education Association at Boston. There was no change made in the office of secretary, that position being filled by Superintendent Keppel, who is ex-officio a member of the board.

Preparations are now being made for holding examinations for applicants for special and elementary teachers' certificates, which will begin the 25th inst., and continue until the 29th. Oral examinations will be given each day as the written examination progresses. The list of questions is now being arranged. Steps have also been taken for the annual revision of the course of study in the common schools throughout the county, except those in chartered cities, Los Angeles, Pasadena, Long Beach, Pomona, and Santa Monica. The State law provides that the course of study shall be adopted each year.

## ESCAPE.

## JUDGE'S ADVICE UNAPPRECIATED.

## NEAR-JURORS OFFER EXCUSES TO DODGE DUTY.

Out of Sixty-five Members of Panel Only Fourteen Are Retained as Jurors in Department Ten. Higher Grade of Intelligence Demanded for Court Work.

Judge Moss read an excellent lecture to citizens of Los Angeles who were intent upon escaping jury duty in Department Ten, yesterday, and then forty-one of the panel jumped the fence and escaped. It looked very much as if the advice offered by the court had fallen upon stony places. However, he has sown the seed, and hopes for better results next time.

Sixty-five men, representing every degree of prosperity, stood in a row and offered this and that excuse why they should not serve their country as members of the term trial jury. When the gavel had been run but fourteen had stood the acid test, and were told to return tomorrow for work. Judge Houser in the meantime drawing another jury to fill in the holes left by the escaping jurors, just across the hall. It was wonderful how many enterprises in this city and county are wholly dependent upon a single man for their success.

One of those excused was C. H. Mosby, editor of the Downey Champion, who said he would be compelled to suspend the publication of his paper if he had to serve on the jury. "And what will the candidates do then," he asked. He was excused. The list of jurors finally determined is as follows:

George Lingo, Hollywood; Ben Lander, G. J. Stanton and G. W. Woodward, Los Angeles; Edward Musselman, Long Beach; O. A. Nuckolls, Luther L. Parker, C. H. Thompson and J. W. Dillard, Pasadena; A. Carr, San Gabriel; Arthur Campbell, North Glendale; A. S. Church, Duarte; Walter Grace, Downey, and T. Hallett, Norwalk.

Just before the court had the near-jurors raise their right hands if they desired to escape service, Judge Moss delivered his advice, and told them that there ought to be a more general acquiescence in the work of complying with the jury law. And while he was talking they stood in rows with hands raised, until they looked like a crowd of scholars in a country school trying to attract the attention of the teacher.

After the verdict the venire that the court could not listen to any trivial excuses for non-attendance, Judge Moss said:

"I hope you gentlemen appreciate that no more patriotic duty devolves upon an American citizen than to serve on a jury. You may not fully realize that, but I hope you do. There has been a great deal of talk of late years against the jury system. That talk, of course, has arisen because of the fact that we have not had high-grade men serve on juries a great deal of the time.

"We have had some high-grade men, but the average men that have served on juries throughout the United States have been of a low grade, comparatively. We have had better juries here right in Los Angeles county than in any other city or county in the United States of America. But we want to raise the grade.

"We have put in the box the names of high-grade citizens, and we have arranged so that it is not a great hardship on any of you. You are required to serve only one month in a year, at the most, and we have so arranged that if we can have a reasonably large panel it will not, ordinarily, take more than a third of any one man's time during that month. So I ask you, gentlemen, not to put forward any excuse that you can avoid putting forward, and to cooperate with this court in raising the grade of jurors, so that if you should have a case in court, and it should be tried before a jury, you will feel that you have the very best citizenship to try your case."

**TO WALK THE FLIGHTS?**  
Persons who business at the Court-house may have to walk up the long flight of stairs, notwithstanding the fact that the building is supposed to have two elevators. Several weeks ago the large lift leading from the tunnel fell and was condemned. The Llewellyn Iron Works is now installing a new one. Since the accident, the small inside elevator has been working overtime. The Supervisors yesterday received word from the company which has insurance on it that it is not required to serve only one month in a year, at the most, and we have so arranged that if we can have a reasonably large panel it will not, ordinarily, take more than a third of any one man's time during that month. So I ask you, gentlemen, not to put forward any excuse that you can avoid putting forward, and to cooperate with this court in raising the grade of jurors, so that if you should have a case in court, and it should be tried before a jury, you will feel that you have the very best citizenship to try your case."

**FOR MOUNTAIN ROADS.**  
The Supervisors yesterday appropriated \$1000 to assist the residents of Pasadena to improve the roads in the San Gabriel Mountains. The project of the scheme to have an efficient road through the mountains is being carried out by the residents of Pasadena.

The Handsomest Store in U. S. for Men and Young Men

## Benjamin Clothes

There is no question about their superiority. Benjamin standard is custom tailoring at its best. They are garments of distinction, instantly ready for you—no waiting on the tailor except for him to catch up with your class. If YOU haven't found out these things—you can. Visit the immaculate Bradford Bakery—see the shower baths the men use daily—see the high-grade materials used—and the conclusive proof—eat the bread itself.

It's your privilege to eat Bradford's Bread today. All leading grocers can supply you.

You are welcome to visit Bradford's Bakery any day to get the proof of your own eyes that it positively is the most sanitary bakery in Los Angeles.

## THE PUBLIC SERVICE.

Continued from Second Page.

did not care to prosecute him, but thought the court ought to do something for those awful appeals. Justice Rose thought so, too, and expressed the opinion that the recollection of a suspended sentence of thirty days might work wonders.

## A NEGRO'S EXCUSE.

**DISTINCTION WAS TOO FINE.**  
The difference between beating a horse and "less ordinary hitting" him a few was too fine drawn to be understood by Justice Rose yesterday morning. W. M. Campbell, a negro, was up on a charge of cruelty to an animal. "Boss, Ah ain't gwine plead guilty ter nuffin' laik dat," he said, solemnly. "Ah ain't best day e're boss, but w'en Ah wasted ter tuhndis heah way, he wanted to go dat e're way, and Ah jess ordinary hit him a few." Campbell had already satisfied the court with a story of a tandy street car as an excuse for his being late in court. The arresting officer was not on hand to say that this was Campbell's third offense, and the negro got off with a \$15 fine.

## BEAT HER RIVAL.

**COFFEE CUP AS A WEAPON.**  
Angela Avila, a strapping Mexican woman, was the only woman in the crowd of holiday offenders before Justice Rose yesterday. Angela runs a little tamale wagon near the Plaza. Saturday evening she saw a hated rival for the affections of a gay sailor mincing by the tamale stand with an insulting hauteur. Angela did not waste words. She picked up a stout coffee cup and went to work on Stella's head. Stella is in the hospital, and Angela will be given a trial next Tuesday.

## WANTED FOR MURDER.

**DRINK LEADS TO DETECTION.**  
Santa Cruz Sembrone, a Mexican, arrested Monday by Detective Talamantes and sentenced to five days in jail yesterday on a charge of being drunk, was identified in the afternoon as a man wanted in Ciudad Juarez, Mex. for murder. The Mexican authorities have been notified of his detention in the Los Angeles City Jail.

## Arraigned for Murder.

Fred Young, the negro who killed Charles Smith at the corner of Ninth and Lemon streets early Friday morning, and Joseph McClarity, the negro who loaned Young the revolver with which the killing was done, were arraigned yesterday on a charge of being drunk, and sentenced to five days in jail. Young and Smith had quarreled over the affections of a negro and the killing followed when Young met Smith several hours later.

## An Affectionate Drunk.

Of the sixty-odd drunks in the Police Court yesterday morning, a two-

Justice Rose. "I was drunk a bit, yias, but I wasn't talkin' to nobody an' it was a very quiet drunk, a very quiet drunk. Your honor." The arresting officer explained that Seanon had tried to kiss him, and the court said: "Ten days, in a tone that shook Seanon's countenance."

**Chinese Gambler Fined.**  
Chin' Fiah varied the monotony of the Fourth of July celebrations in the Police Court, yesterday morning. He was arrested by Patrolman Steinfeld for conducting a lottery game, and the court fined him \$25.

**Blunder Clears Prisoner.**  
The blunder of a patrol wagon officer in "crediting the wrong man with the wrong knife," as Patrolman Pauts explained in the Police Court, got A. Macias off with a \$5 fine on a simple charge of drunk, to which he gladly pleaded guilty. Macias was arrested on when the same one else gave bail and disappeared. Pauts volunteered profuse apologies on behalf of the wagon crew, all of which was accepted.

**Lightning-Like Action.**  
The law protecting street cars against automobiles was invoked yesterday by Patrolman Buser in the case of Roy Buser of No. 225 Alpine street. Buser, by careless driving, ran his machine into a West Seventh-street car at the corner of Fifth and Broadways, demolishing the car steps. He was promptly arrested by the officer, who had seen the accident, and in less than twenty minutes Buser was arraigned before Justice Rose in the Police Court, pleaded guilty to violating the traffic ordinance, and paid a fine of \$5.

**WOULD CLEAN RIVERSIDE.**  
A committee of ranchmen residing along the old channel of the San Gabriel River appeared before the Board of Supervisors yesterday and asked for an appropriation to assist them in cleaning out the bed. The old channel is choked with willows and tules and in flood times turns the waters on its flanks. It is proposed to not only clean out these obstructions, but to straighten the river at its sharp curves. As the County Farm, which comprises 435 acres, will be greatly benefited by the improvement, the Supervisors assured them that they would give them \$500 at the proper time.

## A CROOKED MANAGER?

Richard Koppell, who was the manager of a restaurant for F. A. Clark yesterday on a charge of having embezzled \$250 from his employer. He was arraigned before Justice Pierce and his hearing set for Friday. Clark declared he demanded a settlement from him, and that he was given a promise that the money would be paid by the next morning. The following day Koppell took \$125 from the cash register and disappeared, according to the restaurant proprietor.

## REAL CAUSE. IF AGITATORS QUIT FOR GOOD.

## THEN ALL WOULD BE WELL IN WORKINGMEN'S HOMES.

Labor Union Troubles in This City Fomented by Outside Professional Strike Starters, Who Handle Large Sums of Money Contributed by Sympathizers for "Down-trodden."

If the blatant agitators who fatten financially by the prolongation of strikes and labor disturbances generally, would pack up their traps and take their loud-mouthed ranting elsewhere, there would be practically no evidence of any trouble in the iron trades or among the breweries. Most of the iron works are running full time and full handed as usual, and are having no trouble of any kind. Whenever the walking delegate is quizzed the few disaffected men who quit their jobs a few weeks ago express a desire to return.

At the Llewellyn Iron Works all the men profess to be satisfied, and there is a full force engaged in profitable employment. Out of a working force of 700 men at this establishment, only forty quit their jobs. Some of these have since returned and the places of the remainder have been filled. There has not been a man quit at Llewellyn's in the past three weeks. Much the same situation exists at the Baker Iron Works and the other large plants. All the shops are gaining men steadily, notwithstanding the false reports made by Agitator Reid, who is anxious to keep the men idle so that he can have the handling of funds donated by the San Francisco unions which seek to keep their Los Angeles union brethren out of work so that the northern elements can get business that would otherwise come to this city. The present state of affairs here helps to insure steady work for the union men in San Francisco and they are not unmindful of the fact.

Reid is also calculating upon being able to reap a rich harvest from the deluded men and women who contribute funds to help his evil scheme of establishing an unneeded tent corral for the strikers at Edendale. The best element among the strikers is opposed to this colonization proposition, most of them being desirous of maintaining their own independent homes. The shiftless contingent among them, however, figures that it will be all losing and no work, with three square meals daily insured, as well as a place to sleep at night.

The unionists who have the political bug in their bonnets also favor the colonization scheme, as they figure it will be the nucleus for their new labor party, which has been taken over by the socialist element.

## MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Cheerfulness and a bright disposition during the months before baby comes are among the greatest blessings a mother can bestow upon the little life yet to begin. Her happiness and physical comfort will largely govern the development of the health and nature of the child. Mother's Friend contributes much to the mother's happiness and health by the relief and natural comfort afforded. It is a liniment composed of penetrating oils and medicines which lubricate the muscles and tendons of the body, soothe the swollen mamma glands, cause a gradual expansion of the skin and tissues, and aid in the relief of nausea. The regular use of Mother's Friend greatly lessens the pain, danger when baby comes, and assures a quick and natural recovery for mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.

or Territory of Mexico. Railways pen  
travels to the center of the State only  
in the vicinity of Cienega and Mus  
quib, but to tap other central dis  
tricts there is on foot a project to  
build a line from Chihuahua to Mon  
clova. Lines in operation are the sev  
eral routes of the National Railways  
of Mexico, the Coshuilla and Pacific,  
the Escorial to Sierra Mojave and the  
Ormos Railway. All the principal min  
eral and agricultural regions are af  
forded communication by rail with  
outside points. Numerous stage lines  
serve as feeders to the railroads and  
every large village and ranch is in  
telegraphic or telephonic touch with  
the metropolis of its district and by  
this means with the big cities of the  
State and so to all outside points.

### VICTORY. TRAINED NURSE IS TRIUMPHANT.

MISS MALARKY IS APPOINTED  
GUARDIAN OF SCANLAN.

He Appears on Stand at Tucson  
and Testifies That He Aided of His  
Own Free Will in Going With Her.  
Has Been Charged With Ab  
duction.

(SPECIAL CORRESPONDENCE OF THE TIMES.)  
TUCSON (Ariz.) July 4.—Miss Marian  
Malarky, the trained nurse, charged  
with the abduction of John Scanlan,  
has come out triumphant, after a trial  
in the local courts. She is to be ap  
pointed Scanlan's guardian and will  
be compelled to account for \$8000  
spent by Scanlan and herself in a trip  
that has lasted since last August, when  
she skipped away from this city by  
auto with Scanlan, crossing the inter  
national line near Nogales and thus  
evading the service of embarrassing  
legal papers.

Scanlan, aged 36, last year received  
\$22,500 for mining property in  
Pinal county. He immediately plunged  
into dissipation, though lucid enough  
in mind to appreciate that there were  
many who would divide his money with  
him, if they could. In serious physi  
cal condition, he asked Miss Malarky  
to take care of him, turning over much  
of his property to her and making her  
his mistress. She is to continue this  
care and is to be allowed \$300 a month  
therefor.

Scanlan appeared on the stand in  
his defense and stated that he had  
acted of his own free will in going  
with her, wanting to "get away from  
robbery culture." He admitted that  
he had not touched liquor for  
eleven months. His total estate  
amounts to something more than \$30,  
000.

LABOR NOTES.  
The labor unions of Arizona are go  
ing to take a hand in the formation  
of the new constitution of Arizona, if  
they can. A quiet call has been issued  
at Bisbee for a secret convention of  
delegates from all Arizona unions, to  
be held at Phoenix, July 11, to formu  
late plans for fixing the Constitution  
according to union ideas.

Something of a strike is on at the  
Southern Pacific shops in Tucson, where  
eleven tinmiths and copper  
smiths walked out, to enforce a de  
mand for 16 cents a day more pay.  
They say they were offered 25 cents  
more, but refused anything short of  
this full demand. The strike is said  
to have been ordered by the Amalgam  
ated Sheet Metal Workers' Union,  
San Francisco, July 11, to formu  
late plans for fixing the Constitution  
according to union ideas.

A threat of boycott made by local  
builders has caused a suit for dam  
ages by the Zellner Piano Company  
against Edward T. Davis, a capitalist  
who made plans last year for the erec  
tion in Tucson of a fine business block,  
for which tenants were readily secured  
in advance among the piano com  
pany. The contract for the build  
ing was given to a Los Angeles firm,  
whereas so strong a protest was raised  
by the local building trades that Davis  
concluded to abandon the idea of building.

RAILWAY NEWS.  
President Epes Randolph of the Ariz  
ona and Eastern Railroad, lately re  
turned from Mexico, where he signed  
an agreement with the National Rail  
ways of Mexico for the use of tracks  
between Orendain and Guadalupe,  
the terminus of the Southern Pacific's  
Mexican West coast line. The road is  
now nearly to Tepic, but connection  
with the National system can hardly  
be had for two years.

Mixed trains are now being oper  
ated between Tucson and Nogales over  
the new short line and passengers and  
freight are being handled. The road  
will not be in condition for through  
traffic till the northern section, taken  
from the Twin Buttes Company, has  
been rebuilt.

A joint agreement is under consid  
eration between the city of Tucson and  
the Southern Pacific, looking toward  
construction of a subway under the  
railroad tracks, connecting the busi  
ness section of the city in safety with  
the University district.

Thomas O'Leary has been trans  
ferred from the place of master me  
chanic in the local Southern Pacific  
shop to a similar position in the Los  
Angeles shops, in charge of motive  
power. He is succeeded here by J. F.  
Peterson, who has been in charge of  
the Yuma shops.

BUSINESS SECTION BURNED.  
Only Grocery Store and Saloon Left  
Standing in Commercial Part  
of Lorton.

(ASSOCIATED PRESS DAY REPORT.)  
FRESNO, July 4.—Fire, which is  
supposed to have started in the Lorton  
last night about 2:30 o'clock  
from a pipe carelessly thrown aside  
by a smoker, practically destroyed the  
entire business section of the town of  
Lorton. Only one grocery store and a  
saloon were left standing. The loss  
is estimated at \$100,000, only one-third  
of which is covered by insurance.

As a result of the fire, many peo  
ple who made their home in the hotel  
were left without shelter and this  
morning some of them were taken to  
Hanford and others to Fresno by  
friends. The volunteer fire department  
battled desperately to stay the progress  
of the flames but was handicapped  
by a lack of force in the water mains.  
A score of structures were destroyed,  
including two department stores.

VINEYARDISTS TO FIGHT.  
FRESNO, July 4.—A petition con  
taining the names of local vineyard  
ists representing 22,000 acres and in  
cluding also the names of over 100  
Fresno business men was presented  
to the Supervisors this morning, giv  
ing formal notice that henceforth all  
vineyard agitations will be fought.  
The signers state that the wine grape  
industry is being injured by the on  
slaught of the temperature.

### TRAGEDY. MAN SHOT IN SELF-DEFENSE.

Crazed Father Imprisoned  
His Son.

Shoots from Ambush Upon  
Rescuing Party.

Gets Bullet Through Neck by  
Return Fire.

(SPECIAL CORRESPONDENCE OF THE TIMES.)  
YUMA (Ariz.) July 4.—Tuesday  
last, in the Cibola Valley, on the Colo  
rado, S. B. Sealey was shot in self  
defense by a party of young men,  
including Carl Bishop, Leo Franken  
burg and Tony Sealey, the last  
named his son. The trio had met to  
provide a way of releasing a second  
son, who had been imprisoned by the  
father, who, for some time, had  
shown signs of violent insanity.

The father lay in wait by the road  
side and fired upon the young men  
from ambush. In the return fusillade  
one bullet passed through the older  
man's neck.

Sealey came to Yuma county four  
teen years ago, from Oxnard, Cal.,  
taking up a large amount of land at  
Cibola, seventy-five miles north of  
this point. He was wealthy, but had  
been unbalanced through worry over  
litigation that threatened a part of  
his holdings.

Last Monday, near Andrade, a Mex  
ican workman was killed, another  
Mexican badly hurt, and Charles  
Jones had a leg so shattered that am  
putation became necessary. Foreman  
Baker and two Mexicans were injured  
also, though not seriously. The men  
hurt were gathered around a water  
ing trough, with a number of mules.  
Near by, an American, named Jacob  
son, was preparing to fire a blast on  
the line of a new railroad grade.

Without other warning, Jacobson  
shouted "Fire" and ran, having rock  
ed his fuse so short that the explo  
sion came before most of the men  
could get out of the way. Jacob  
son kept on running, for the Mexi  
can workmen would have lynched  
him had he remained.

INDIANS DISPLEASED.  
The Indians on the Yuma Reserva  
tion, across the river, thus far fail  
to appreciate the benefits that are  
to come to them through the segrega  
tion of the land which they have con  
sidered their own. After sale of the  
greater part of the reservation to  
whites, the Indians, irrespective of  
sex or age, have been allotted five  
acres each, giving a tidy farm to the  
average Indian family. But the Yu  
mas now want ten acres apiece, and  
they want to protest to the President  
against a number of things that do  
not suit them. So a purse of \$500  
has been made up by the redskins, who  
propose to send several of their chiefs  
to Washington to talk matters over  
with the "Great Father."

They have corresponded intelli  
gently with Senator Flint and Con  
gressman Smith, and have asked them  
to secure a date for the desired inter  
view. In Yuma there is a general be  
lief that the allotment is the some  
thing ever suggested for the benefit  
of the Indians.

At present they exist on as little  
water as they possibly can do and  
live, spending much of their time in  
loafing around the railroad station,  
where they are sure of admiration  
from the tourist travel.

Most of the agriculture in the past  
has been the planting of corn, beans,  
and melons in the mud of the river  
bed as the Colorado declines from its  
spring flood. Now this has largely  
been cut off by the extension of the  
levee system. With abundant water  
for irrigation, secured without cost  
from the Laguna dam, the Indians  
on their own land soon should become  
very prosperous. They are fair work  
ers at need rather than above the av  
erage Indian in intelligence. Many  
of them have had a common school edu  
cation here and in the great Indian  
school at Phoenix.

A few days ago the tribal discon  
tent was well aired at a meeting  
called by the agent, Miss Egan. About  
150 Indian men attended. To them  
was explained that, as the levees had  
cut off the usual supply of food wa  
ter, the Indian Bureau and Reclama  
tion Service would cooperate this year  
with the Indians to the end that a  
crop be harvested.

A level plot of ground had been se  
lected, which could be fenced with  
barbed wire, supplied free by the gov  
ernment, which would also supply  
free the farming implements. The  
Indians would be expected to pro  
vide the fence posts and to clear the  
ground, after that to be assisted  
in all ways in planting and in tilling  
the land. But the assemblage showed  
little enthusiasm over the prospect  
of more work, and chose rather to  
take up the time in voicing the op  
position to anything but old tribal cus  
toms.

No progress whatever was made  
and the meeting adjourned without  
action. If something cannot be done  
of this nature, there is a prospect for  
suffering on the reserve very soon.

YUMA IS SAFE.  
Very little apprehension is felt in  
Yuma over the report of the possible  
"back-cutting" of the channel of the  
Colorado River as far up as this  
point. Several years ago, just before  
Epes Randolph stopped the gap at the  
Imperial landing, a batch of  
alarmist speculations were turned  
loose, that prophesied that Yuma  
would yet be upon the edge of a sev  
enty-foot crevasse, through which the  
Colorado would flow, all of this spell  
ing disaster to the Southern Pacific  
Railroad bridge and even to the La  
guna dam. But it is many a mile  
from here to the scene of the present  
back-cutting, which is only in one  
channel of the river, hardly likely to  
work back as far as this point, where  
the river for the first time  
above its mouth confines itself to a  
single channel. Even were there to  
be a cut as far as Yuma, there hap  
pens to be at Fred Hill, on the edge  
of the city, a hardpan or caliche for  
mation that extends across the Colo  
rado, forming an obstacle that would  
surely prove effective against a far  
ther extension northward, toward the  
Laguna dam.

GERMANS MAKE CONCESSIONS.  
BERLIN, July 4.—The Bundesrat  
considered today the State Depart  
ment's protest against the German  
Parliament's potash syndicate law. It  
authorized the Chancellor to negoti  
ate an agreement with the United States  
on a basis of recognizing the Ameri  
can contracts to 1912, but not nations  
extending the contracts to 1917.

WINE FROM PALESTINE.  
Feature of Banquet of Zionists Held at  
Pittsburgh—Officers Are  
Nominated.  
[ASSOCIATED PRESS DAY REPORT.]  
PITTSBURGH (Pa.) July 5.—Con  
clusion of business at the thirteenth  
annual convention of the American  
Federation of Zionists was expected  
at today's session. The nomination  
of officers, was reported by a commit  
tee as follows: S. Abot, New York  
president; Rev. Dr. J. L. Magnes, New  
York, vice-president; Miss Henrietta  
Said, Louisville, secretary.

At a banquet of Zionists last night  
nearly 500 prominent Jews from all  
parts of the country were present. A  
feature was the service of wines sent  
especially from Palestine from vine  
yards in the very lands which the  
Jews hope to reclaim.

THE "SHORT WITTY" POME.  
MONROVIA (Cal.) July 4, 1910.  
The Los Angeles Times, Los Ange  
les, Cal.—Dear Sirs: I am sending  
this short poem to your paper for  
publication in your columns, if pos  
sible. I would be glad to learn from  
you, if it might possibly be any  
chance of furnishing you short,  
witty poems at some small wages.  
I would, indeed, be glad to hear from  
you as soon as it is convenient. Very  
respectfully, M. M. box 411, Monrovia, Cal.

ITS FUNNY.  
Life's a funny proposition.  
Things are not just what they seem.  
For the happy scenes of livin',  
Pass like memories in a dream.

One day we're feelin' good,  
And the next we're looking blue;  
Nobody seems to know us;  
We don't know what to do.

Lots of things sure look easy,  
From the outside all about,  
But just as dows inside them,  
And then turn and look out.

Once there stood Jack Johnson,  
Like a giant in his fame;  
Then along came our Jimmy,  
And forever erased his name.

Now Jack Johnson really thought  
That Jeffries couldn't win.  
But today he wears a frown,  
Where he used to have a grin.

Ain't it awful, awful funny,  
And still it's just as true,  
People don't take our talkin',  
It's just the things we do.

Now Jeffries didn't blow,  
As did his rival, Jack;  
But it was the things he did  
That won his title back.

"I guess that Johnson's done,"  
The crowd did loudly sing,  
As Jimmy's mighty smash them,  
Sent him sprawling from the ring.

Now, Johnson, you did blow  
Before the fight was on;  
But, oh, you blew too hard,  
For now your title's gone.

Life's a funny proposition.  
Things are not just what they seem.  
For the happy scenes of livin',  
Pass like memories in a dream.

Be sure and take a bottle of Cham  
berlain's Colic, Cholera and Diarrhoea  
Remedy with you when starting on  
your trip this summer. It cannot be  
obtained on board the trains or steam  
ers. Changes of water and climate  
often cause sudden attacks of diar  
rhea, and it is best to be prepared.  
Sold by all dealers.—(Adv.)

**\$2.50 White Spreads \$1.95**

Extra heavy crepe spreads, in the large size and hand-made patterns. Wonderful values.

# See the Waists at 50c and the Dresses at \$4.98 in the Basement

## STAR-CHAMBER SESSIONS NOW.

Councilmen Meet in Secret for Action.

Discuss Aqueduct Finances Behind Closed Doors.

Statement Is Issued Dealing With Conditions.

The star chamber has been instituted by the Good Government administration as a post-election innovation. It began yesterday with two sessions of the Council in secret, and will be continued tomorrow night, when the Mayor or certain Council members and other city officials and Good Government seers, prophets and comforters at the Westminster Hotel at a dinner.

This dinner thing is to inaugurate the happy family idea and incidentally give opportunity for the executive branch of government to become the alpha and omega of legislation. At least that is the way it looks to the uninitiated, even to "Uncle Jerry" Andrews, who has been combating official Ostracism for several weeks.

The first star chamber was when the Council met alone yesterday morning to discuss aqueduct finances. None of the usual advisers was present, except the Mayor. It was held during a recess of the Council and was attended with ceremonial mystery.

When it was over Councilman Washburn, chairman of the Finance Committee, read a statement concerning the financial affairs of the aqueduct and introduced a resolution carrying out the purpose of the statement. It was in effect that the responsibility for the progress of the work on the big ditch without interruption is on the Council and that the attitude of the bond syndicate is such that it may not furnish any more money except the \$100,000 due December 1. The syndicate has yet to exercise its option on the \$1,000,000 of bonds necessary for the work in 1921.

advisory to the Council in the crisis. The appointment of Koepf was a surprise as he is in Europe, but it is possible the plans of the Council may require him to offer bonds for sale abroad.

**FRANK ADMISSION.**

The statement was a frank admission of what has been generally understood for several weeks. Financial stringency in the East has curtailed the ability of the syndicate to take the aqueduct bonds and unless there is reassurance before the end of the month the city must look elsewhere for money to keep the accelerated work on the big project going.

It may mean an appeal to the people for a popular subscription of aqueduct securities in small denomination. The selection of the advisory committee means that an effort will be made at once to enlist the aid of the local banks and seek an outlet of bonds at once so that the work may be engaged and the magnificent organization in the field preserved. This organization is one of the most valuable assets of the city, and once destroyed would be costly to rebuild.

By arranging with the syndicate to advance its option payments the city was able to double its work, and thus complete by July 1 what originally was not intended to be completed until January. The work would stop until that time and be ahead of schedule, but there is no wish to stop. There is anything but that. Rather, the officials would prefer to increase work and absorb all the bond proceeds practical.

But the situation confronting the Council is one that may not be pleasant. The Council must know whether the syndicate will finance the work through the year on the enlarged scale begun in February. An answer to be demanded. If it is negative, then the Council expects to deal with others, and the advisory committee is to aid the finance committee in planning this relief.

"fight." Accordingly, Hewitt will ask Judge Weiborn for a delay of a week in the hearing of the case this morning, and will report to another session of the Council in star-chamber at the Mayor's office this afternoon at 1:30 o'clock.

It is understood Lissner did not say anything during the session. But the conference did result in one gain for the telephone companies. The Mayor sent a message to the Council yesterday asking that the San Pedro rates be restored and that the arbitrary charge of 11 for all extensions be changed to an optional one so the companies can give extension service for less than 11. The Council agreed to make the change, which was clearly errors in the hurried rate fixing.

**AGRICULTURAL PARK PLANS.**

Playground Commission Asks Supervisors for Appropriation for Athletic Field.

Representatives of the Playground Commission appeared before the Board of Supervisors yesterday, and explained their plans for a gigantic field at Agricultural Park, where the little ones might romp in great freedom. The spokesmen were J. D. Redford and Miss Beale Stoddard. Their idea is to turn the fifty-three-acre inside the race track into a playground, by lowering it two feet so that no view would be obstructed by reason of the race track. There are also plans for a ten-acre addition outside of the track, where buildings might be erected and the very small children might have their sports.

The commission asked for an appropriation of \$25,000 for the improvement. The Supervisors requested time in which to consider the proposition.

**NO EXHIBITION AT ALL.**

BERLIN, July 5.—The project of an American and German exposition in 1921, which was suggested in March last, when the plan for a strictly American exposition was dropped, has now been given up also. A conference was held between the chairman of the American Exposition Committee and the German promoters, Baron Brandenstein, Privy Councillor Loewe and Director Albert Willner of the American exposition, which resulted in this decision.

**TOY BALLOON CAUSES FIRE.**

EVANSVILLE (Ind.) July 5.—Fire starting from a toy balloon that dropped on a roof, threatened to destroy Newburgh, Ind., ten miles east of here tonight. Several business buildings have been burned. The fire was under control at 3 o'clock this morning. The loss is about \$25,000.

## CONTINENT OF ANTARCTICA.

Small Rocky Islands Prove Its Location by Their Sedimentary Consistency.

[Washington Post:] Some 200 or 300 miles south of New Zealand are a number of little rocky islands that have long been marked on the maps, though not much attention has been given to them other than as a navigational hazard. They are known as Snares, Auckland, Disappointment and Campbell islands. A scientific party of New Zealanders has recently been making a thorough exploration of these islands and have come home with facts about them that are of great interest.

The most remarkable thing they tell about the islands is that they were once part of the continent of Antarctica. There they stand far out in the ocean, and yet they are not oceanic islands. Most of the oceanic islands stand out far from land and do not contain any of the typical rocks of the continents, such as sandstone and other sedimentary rocks, but are built up from the bottom of the ocean by the outpouring of volcanoes or made by the reef building corals. Continental islands, on the other hand, usually stand near the continents and very often they were a part of the continent in an earlier time, and they have the same sedimentary and crystalline rocks.

These little islands, though they lie over 1000 miles from Australia, and about 1200 miles from South Victoria Land, a part of the Antarctic continent, are built of the very same rocks that make up the great continent of masses, and the most significant proof that they were once a part of a continent is the fact that the mighty glaciers of a past ice age left their unmistakable marks upon these rocks. Here are the groovings they dug in stone surfaces, and the piles of moraine debris, they heaped up as they moved along.

The conclusion which Dr. Speight draws from these phenomena is that these islands are vestiges of the much talked of Antarctic continent, and he and others believe that at a geological age and not very far distant the Antarctic continent stretched from Australia to the South Pole and South America, and later a large part of it sank beneath the sea.

So the world seems to be coming back to the view of the mapmakers of the sixteenth and seventeenth centuries, when they built their Terra Australis entirely out of conjecture excepting for Tierra del Fuego, which had been discovered. They placed so much of the mysterious continent where Australia really stands that there was much controversy later as to whether that region had not actually been found two or three centuries before Cook made his famous voyages.

## SELF-SUPPORTING WOMEN.

Great Change Has Been Made in the Past Ten Years in United States.

[Chicago Journal:] That a great social change is taking place among the people of the United States is evident from statistics relating to women at work. Not many years ago life meant a home, a husband and children to women in the mass. But now at least one woman in five does not regard the problem in that way, for one woman in five, over 16 years of age, is earning her own living outside the home. Within the last ten years the number of women working for wages in the country has increased 30 per cent. The number of women in the higher professions has grown by 200 per cent. In the seven years since 1900; while in the same time, in artistic pursuits, such as painting, music, embroidery, millinery and dressmaking, the number has greatly fallen off.

This means, of course, that many women earn money by their own exertions, support themselves, are independent of man as the provider, lead their own existence. Marriage with them is no longer a necessity. It is often remote from their own thoughts. This attitude of American women is one of the phenomena of the times, especially interesting because of its bearing on the questions of marriage and the family. If more and more women come to be self-supporting, what will become of the home, and what readjustment of the relations of the sexes will become necessary?

**Missouri's Agricultural Movement.**

The proposed movement in Missouri for the formation of areas for intensive farming on the community of interest basis, through philanthropic assistance, will doubtless arouse great interest throughout the United States because of the existing belief that demand for food products has outrun the facilities for supply, and that unless there is increased production through closer settlement or by intensive farming the prices of the food staples will remain high and possibly advance to higher figures than those which are now causing discontent.

The Missouri idea is to establish forty-acre farms around a central farm of 160 acres, which will serve as the parent farm in the capacity of instructor for the heads of the smaller surrounding farms. (Milwaukee Wisconsin.)

## CITY'S TAX VALUATION.

(Continued From First Page.)

Power Company, whose stock valuations have depreciated considerably, the assessors' reports. The eleven big corporations assessed, subject, of course, to readjustment by the Council acting as a Board of Equalization, are: Pacific Telephone and Telegraph Company, \$1,200,000; Domestic Gas Company, \$524,520; Los Angeles Gas and Electric Corporation, \$1,410,000; Los Angeles Pacific Company, \$1,250,000; Pacific Light and Power Company, \$1,515,590; Pacific Electric Railway Company, \$7,129,845; Southern California Edison Company, \$1,515,590; Telephone Company, \$1,242,530.

The knowledge of the valuation makes an estimate of the city's finances for the coming year possible, in a general way. Last year the levy for municipal purposes was 35 cents on each \$100. It will be no greater this year. This limit is regarded as a dead line by all administrations and the Council Finance Committee has already sent out notice that it will try to keep before rather than reach this limit this year.

A levy of 35 cents on the gross valuation will yield the city about \$2,850,000. To this may be added \$1,100,000 of receipts from licenses, departments and miscellaneous. Last year the receipts from these sources were \$1,514,000. If the Council increases the rate of licenses, as it proposed some months ago, the future revenue will be increased by about \$200,000 more.

The city will have approximately \$4,000,000 to maintain its governmental functions. But it is the promise of the present administration that retirement will be practiced and that a new room for the hope that an 80-cent levy or less will do.

## ANGELENOS.

Thompson and Wife Reno-Charged With Stolen Car.

BY DIRECT WRIT JULIO RENO (Nev.) Juvenile Los Angeles lawyer Dismissed. Fred H. Thompson, day in 1920 bail to the Justice of the Peace a charge of receiving Officer S. L. Brown were out on a complete parole on Tuesday and waive extradition and furnish with him.

Tuesday night the crowded with fight it back to the coast owners and their custodians to secure berths on they refused to leave got a riotous.

## TWO DRUGS.

BY L. RANT (Or.) Juvenile Dismissed. J. M. and William E. Frank next young people were this city this evening when they seven people were over in deep water. O'Leary saved the members of the party.

A party of prominent people had gone up the two gasoline launch starting from the city. The launch was owned by Mr. and Mrs. Frank. Misses from C. Mackinnon and Velma Davis were also on board. The launch was the bank and turned over.

The increase of \$5,000,000 in the valuation for municipal purposes...
